The story of Captain Levi, Attack on Titans most beloved character, collected in a single, 400-page hardcover in glorious full color! The Complete, Color Saga of the Thief and the Soldier in Attack on Titan, Erwin Smith and Captain Levi are an inseparable duo, the calculating brain and pumping heart of the Survey Corps. But their past was a mystery, until the release of the globally-acclaimed bestseller Attack on Titan: No Regrets. Years earlier, the young Erwin was an ambitious military ladder-climber and political prodigy, while Levi lived in another world under the elite’s feet, the Underground. In this place, humans are born and die surrounded by the garbage the Capital throws away, and only the lucky or the ruthless have a chance to emerge onto the surface and see the Sun. Under a fierce exterior, Levi longs for a life of dignity for himself and his friends, while Erwin’s lifelong obsession with the Titans drives him to depths of moral ambiguity. The two men’s collision course will lead to tension, tragedy, and the greatest team of Titan-fighters humanity will ever know. Direct from Japan in a newly-colorized edition! Includes never-before-published bonus stories and illustrations.

I was skeptical about buying this book since the colored Japanese volumes are disappointing (basically just unimpressive colored versions of the manga). I bought this anyway because I collect the manga, and I’m glad I did! Unlike the Japanese volumes, this book is really nice. Its hardcover, larger than average manga, has glossy pages, and includes both volumes of the No Regrets manga. Best of all, it includes the extra stories that were missing in the regular volumes, and the extra artwork that was published in Japan (like the limited edition covers). The only thing I’m not sure about are the thin pages. They feel like they could easily rip, so I feel like I need to very carefully turn the pages. Despite the one con, this is definitely worth the money! If you haven’t bought the No Regrets manga yet, I would definitely recommend buying this version.
